Council welcomes feedback on options for a Safe Cycling Corridor

Residents are invited to provide feedback on Council's *Corridor Assessment Report* on Safe Cycling Corridor options for Glen Eira.

The *Corridor Assessment Report* follows on from our consultation with residents earlier this year about an opportunity to pilot a safe cycling corridor along Inkerman Road in Caulfield North.

The *Report* contains information on four route options which could provide residents with a cycle connection into the CBD. These are:

1. Dandenong Road;
2. Inkerman Road – Alma Road (two-way);
3. Alma Road eastbound and Inkerman Road westbound (one-way); and
4. Inkerman Road.

Each route option has been assessed against three criteria:

1. Safety for Cyclists;
2. Impact on the Neighbourhood; and
3. Feasibility of Construction.

To help understand each route's potential for a safe cycling corridor, a range of data has been gathered against each of the criteria. These include: traffic counts; current use by cyclists; number of crashes recorded along each route; and the levels of parking demand.

Consultation on the *Corridor Assessment Report* closes on Monday 14 October 2019 and the feedback will be presented to Council for a decision in December.

For further information and to provide feedback, visit www.gleneira.vic.gov.au/safe-cycling
