

Mother's Day Necklace Activity Sheet

What you will need

Cardboard

Scissors

Pencil or marker

Wool or string

Paint

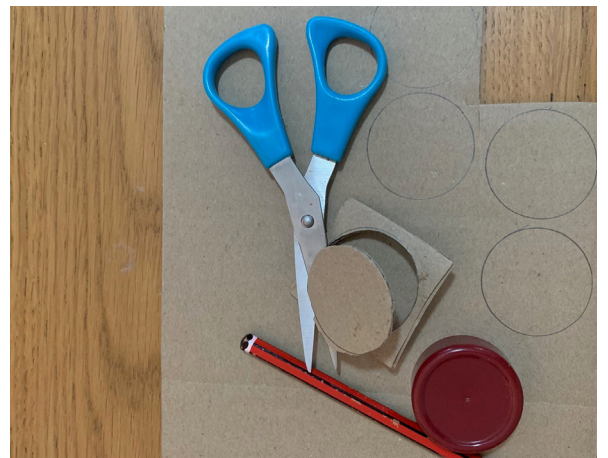

Stencil for making a circle (we used a spice jar)

Large darning needle

Step one

Using a marker or pencil, trace around your stencil to make circles on the cardboard.

Step two

Cut out the shapes with scissors.

(You may like to try different shapes — maybe a love heart or leaf)

Step three

Decorate your shapes with paint on both sides.

Leave to dry.

Step four

Using the wool and needle, string your 'beads' together by running the needle and wool through each circle. (There should be a natural path through the corrugated cardboard, making it easy to thread these together).

Tie off the top of your string.

Step five

Wear your necklace and share with us by tagging #GEplay #BeKindGlenEira
