

Skills Swap is an initiative for business to business non-cash exchange of skills.

A Skills Swap can include things like; swapping copywriting for accounting services, marketing for massage services, google analytics for graphic design and much more. It's as simple as listing your skill and looking through the listings to find something you would like to swap it for.

It is up to each business to find a suitable swap and to make contact with that business to arrange an exchange of services and/or products.

You need to be operating in Glen Eira and have an ABN registered in Glen Eira.

You will be required to register online detailing your offer, which will be submitted for publishing on the webpage.

Here's how it works

- list your business information on the online form
- detail your own offering
- search for the skill, service or product you seek
- contact that supplier and detail your own offering
- if accepted by both businesses, arrange a swap of skills
- both businesses deliver as promised

Any information published on this site is publicly available. You are responsible for ensuring that any information you submit for publishing is accurate and appropriate.

Council may remove any offensive or misleading information or decline your registration on the site.

This is strictly a peer-to-peer facilitation. You are responsible for following up with any business you enter into a skill swap with.

Council is not responsible for non-delivery of any services or products and will not enter into any disputes between businesses.

The Skills Swap webpage is part of Glen Eira's response to COVID-19 impact on local businesses.

It offers a non-cash exchange which is additional to any usual commercial business undertaken by those listing on this site for local businesses to help other local businesses.
