Statement of significance:

This tree fulfils the criteria of:

- Unique Location or Context
- Particularly Old Specimen
- Outstanding Size
- Aesthetic Value

This large, mature Sugar Gum provides a major contribution to the landscape and local neighbourhood character due to its unique location as a prominent canopy tree in close proximity to a commercial shopping precinct.

The tree is highly visible from all directions in the surrounding area and it has an outstanding trunk girth and significant canopy spread. Based on its size the tree is a particularly old and healthy example of the species.

An introduced native species that has now become naturalised, this tree likely provides significant value to local wildlife.
