**Structural Root Zone (SRZ):** 3.6m

**Approximate age:** 85+ years

**Diameter at breast height:** 112cm

**Tree Protection Zone (TPZ):** 13.4m

**Tree height:** 18m

**Tree canopy width:** 21m

**Easting:** 327832.3

**Northing:** 5803728.9

**Glen Eira Asset ID:** TP104073

### Statement of significance:

This tree fulfils the criteria of:

- Particularly old specimen
- Outstanding size (girth height spread)
- Aesthetic value
- An outstanding example of the species

This tree is a probably the oldest example of an Algerian Oak within Glen Eira with an estimated age over 85 years old. The tree has a large, domed canopy with an outstanding canopy spread over 21m wide. It also has a significant trunk girth over 3.5m in circumference.

The tree is a large, healthy and well-formed example of the species that is striking in the landscape and makes a substantial contribution to the neighbourhood character. The tree provides significant canopy coverage and amenity to the community and given its age and condition is an outstanding example of the species at the local level.
