TREE REPORT

Tree number: 193/CTR/2021

Date of Assessment: 05/05/2023

Assessing Officer: Christian Renaud

Tree Owner: Private Tree

Address: 17 Omama Rd, Murrumbeena

Location: Private Open Space

Record type: Single Specimen Tree

Number of trees: 01

Botanical name: *Quercus robur*

Common name: English Oak

Structural Root Zone (SRZ): 3.4m

Approximate age: 80+ years

Diameter at breast height: 106cm

Tree Protection Zone (TPZ): 12.7m

Tree height: 16m

Tree canopy width: 20m

Easting: 330397.0

Northing: 5804605.9

Glen Eira Asset ID: N/A

Statement of significance:

This tree fulfils the criteria of:

- Particularly old example of the species
- Aesthetic value

This English Oak is located along the side street frontage of a prominent corner property. The tree is a large and healthy example of the species that is a particularly old specimen and likely to be one of the original garden plantings following construction of the dwelling in 1916.

The tree has a high degree of visibility from the public realm and significant presence within the streetscape. It makes a major contribution to the local landscape and neighbourhood character, providing amenity to the community with substantial canopy coverage over the road and footpath. The tree is located within an area of the municipality that recognises the aesthetic value mature trees provide.
