### Statement of significance:

This tree fulfils the criteria of:

- Unique Location or Context,
- Particularly old specimen,
- Outstanding size (girth height spread)
- Aesthetic Value,
- Outstanding habitat & biodiversity value

This mature River Red Gum is prominently located within the historic Brighton General Cemetery and makes a striking contribution to the landscape.

It is an old remnant indigenous specimen with an estimated age over 220 years, and with a significant size that has not been impacted by any nearby development.

The tree provides significant amenity to visitors and aesthetic value to its surroundings.

As an indigenous remnant flowering tree, it will also be a value food resource for native wildlife.
