### Statement of significance:

This tree fulfils the criteria of:

- Outstanding habitat and biodiversity value

This young mature Spotted Gum located is located on a large private property which has been a vacant and unoccupied site for over 25 years. It is a native tree that is reported to be a prolific and heavy flowering specimen by numerous neighbouring residents. The tree attracts a wide range of native birds and animals as a valuable food resource, particularly in an area of the municipality with a high proportion of exotic canopy trees.

This tree has excellent potential for continued growth within its location, benefiting the local indigenous wildlife for many years.
