

Glen Eira Classified Tree Register

TREE REPORT

Tree number: 341/CTR/2022

Date of Assessment: 01/02/2022

Assessing Officer: Christian Renaud

Tree Owner: GECC

Address: Harleston Park, Elsternwick

Location: Council Park Land

Record type: Single Specimen Tree

Number of trees: 01

Botanical name: *Populus X canadensis*

Common name: Canadian Poplar

Structural Root Zone (SRZ): 3.5m

Approximate age: 50+ years

Diameter at breast height: 110cm

Tree Protection Zone (TPZ): 13.2m

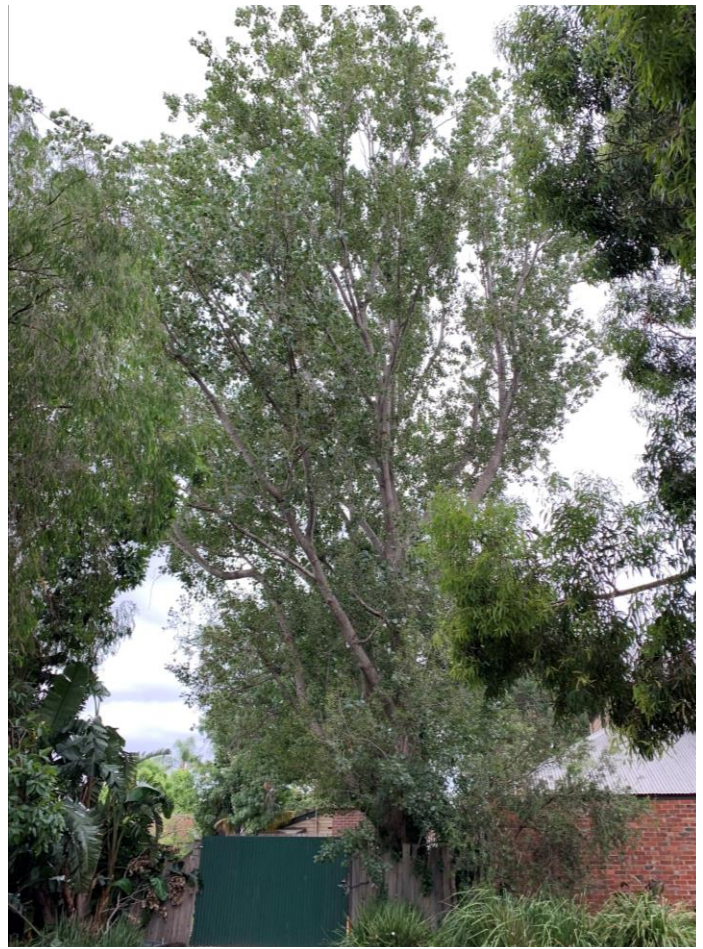

Tree height: 28m

Tree canopy width: 20m

Easting: 325026.8

Northing: 5805477.1

Glen Eira Asset ID: TP107931

Statement of significance:

This tree fulfils the criteria of:

- Outstanding Size (girth height spread)
- Aesthetic Value
- Outstanding Example of the Species

This is a large and healthy example of a Canadian Poplar within Glen Eira that is outstanding for its height and canopy spread. Particularly as a mature tree within Harleston Park which has lost several large mature trees over recent years due to drought impact.

Close to the edge of the park, this tree provides significant aesthetic value as it makes a major contribution to the local landscape and neighbourhood character, especially in conjunction with the rest of the park and the avenues of Plane Trees along Seymour Rd and Allison Rd.

With its good health and structure, this is an excellent and outstanding example of the species within the entire municipality.
