Statement of significance:

This tree fulfils the criteria of:

- Outstanding size (girth height spread)
- Aesthetic value

Although typical of mature examples of the species, this tree is of outstanding size for its trunk girth which is over 6m around, as well as canopy spread which provides substantial shading and cooling over the paved recreational yard of the school.

Although setback from any street frontages, this tree is still striking in its setting and makes a major contribution to the local landscape, primarily for the benefit of the school community. The tree provides amenity for students and staff, and the loss of this tree would be a loss for the municipality as a whole.
