

Glen Eira Classified Tree Register

TREE REPORT

Tree number: 46/CTR/2020

Date of Assessment: 13/05/2021

Assessing Officer: Christian Renaud

Tree Owner: Council Trees

Address: Carnegie Station Carpark

Location: Public Open Space

Record type: Group of Trees

Number of trees: 03 of 12

Botanical name: *Eucalyptus camaldulensis*

Common name: River Red Gum

Structural Root Zone (SRZ): 2.6 – 3.4m

Approximate age: 75 – 175+ years

Diameter at breast height: 49 – 83cm

Tree Protection Zone (TPZ): 5.9 – 10m

Tree height: 12 – 13m

Tree canopy width: 9 – 12m

Easting: 329353.8

Northing: 5804958.1

Glen Eira Asset ID: TS73645; TS73646 & TS73647

Statement of significance:

These trees fulfil the criteria of:

- Horticultural or Genetic Value
- Unique Location or Context
- Aesthetic Value
- Outstanding Habitat Value

This stand of 3 River Red Gums are self-sown specimens from original remnant vegetation in the area and as such may represent an important source of future propagating stock for indigenous trees. They are uniquely located within the carpark of Carnegie Train Station and combine with “Rosie” and the Woorayl Street Reserve group of trees to form part of the larger cluster of River Red Gums in the vicinity.

Although significantly impacted by the recent Level Crossing Removal works, these trees still provide significant amenity to the neighbourhood and their loss would negatively impact the local landscape.

The Carnegie cluster of River Red Gums has been identified in the “Biodiversity in Glen Eira” report as representing a biodiversity hotspot, forming a key wildlife corridor along with the River Red Gums within the Murrumbeena Railway Precinct.
