ROAD HEIRARCHY

LINK

Roads of this classification primarily provide a linkage between significant Residential, Industrial and Commercial nodes and or the declared road network. These roads have an identifiable Origin and Destination (example: suburbs, industrial areas or places of interest)

COLLECTOR

Roads of this category primarily provide a route between and through Residential, Industrial and Commercial areas and convey traffic to the Urban Link or Declared Road network system.

ACCESS

A road, street, court or laneway that primarily provides direct access for abutting residential, Industrial and Commercial properties to their associated collector and link roads with minimal to no through traffic.

VICROADS

Declared arterial roads.
