

Batteries don't go in any bins.

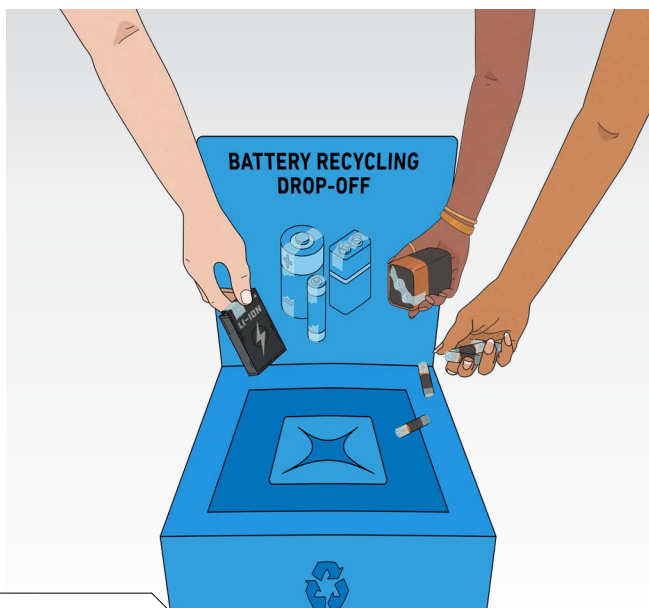

Did you know you should never put batteries in household bins, park bins, street bins or hard rubbish?

This includes items that have batteries inside them such as vapes, toys or electronics. Batteries cause fires in rubbish trucks and recycling facilities.

Recycle batteries safely at Council Library e-waste stations or retail drop-off points — many supermarkets accept batteries (find locations at www.bcycle.com.au).

Drop off vapes for safe recycling at the Caulfield Library vape collection container.

For more information, scan the QR code or visit www.gleneira.vic.gov.au/e-waste
